

Free Cloud Security Risk Assessment

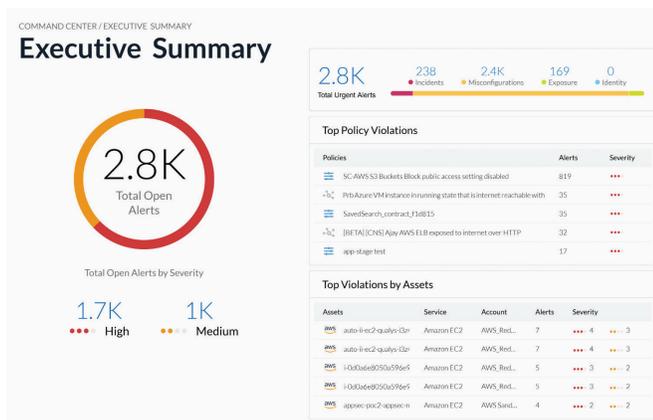

Why is a free Cloud Security Risk Assessment worth my time?

Today, many companies leverage cloud transformation to drive business value. Cloud security plays a critical role in protecting the process, and none is more powerful, adaptable, and high-ROI than Prisma Cloud, the most comprehensive cloud-native application protection platform (CNAPP). In your free Cloud Security Risk Assessment, you'll receive a quick, easy, and high-level perspective on the security posture of your cloud footprint.

What is included in the offer?

- Top cloud risks and incidents report generated by the Cloud Security Risk Assessment
- 1 hour walkthrough session conducted by the Palo Alto Networks cloud security architect to discuss key risks and incidents
- 10-day free trial of our cloud security solution
